

Working Prototype Known Problems Report

Share Yourself Artists - Business Flow

Zion Calvo, Kaio Barbosa, Roslyn Axtell

12/3/18

1. The step by step tutorial starts automatically, but does not load the correct information. This problem resolves itself after leaving and returning to the page.
2. The step by step tutorial message boxes inconveniently shifts the screen up/down on some screens.
3. The step by step tutorial will sometimes be placed on the wrong side of the element depending on screen size.
4. When the dashboard page reloads, it does not display the submissions. The submissions appear after navigating to another page and then navigating back to the dashboard.
5. Long words overflow past the submission description box.
6. When a description for a single submission is expanded, all descriptions are expanded for all other arts as well.
7. Dummy Submission has "null" value for date submitted.
8. Unable to respond to dummy submission.
9. If the tutorial is interrupted and navigate away and return to the submissions page, the dummy submission will be gone.
10. On login - Submissions do not appear until after clicking start tutorial. Afterwards, they will show up however counts will not be updated
11. If you sign out from the dashboard and sign back in - the unreplied submissions duplicate themselves
