
WORKING PROTOTYPE KNOWN PROBLEMS REPORT

SHARE YOURSELF ARTISTS

Team Name : Share Yourself Artists

Revision Date: 07/25/2018

functions not working correctly

Include in the item entry the input/action that causes failure; location of fault (if known); possible action for removal of fault.

1. After uploading an art, artist_dashboard's art order changes.
2. After pressing All submissions buttons multiple times, when we press the Unread submissions button, the content could randomly get duplicate
3. Sign-in again crashes in some browser.
4. When you sign-up and click enter, it doesn't route you to the artist dashboard page.
5. After a business submits a review they must click "all submissions" before that art disappears.
6. Text field on submissions page for business has red outline inside the box if you write in the field and then delete it.
7. Art images get cut off on mobile screen.
8. Artists will still have the artwork in their dashboard, but the artwork will be sent.
9. Reviews page for artists is unable to automatically fetch reviews - Unread and Read reviews can not click immediately after refresh, all reviews can.
10. Some of the arts in the review page might duplicate in the event of spamming the all reviews button.
11. You can visit the homepage after login which might introduce unexpected behavior.
12. Mobile version have conflicts with some UI such as the profile page, etc.
13. Some browsers are unable to show some of our features such as profile pictures due to incompatibility with hyperlinks.
14. Typing into the forgot password field will also type into the login user email field.
15. Refresh may cause persisted state problems with avatars.
16. Uploading an art will change avatar icon.
17. Refresh causes minor glitches to the UI.

18. You are not routed when you sign up as an artist, you must refresh.
19. Side navbar item coloring is unpredictable.
20. When entering and reentering the password, they do not have to be the same.
21. Sometimes sign ups don't work, especially in the signup page found in the login area.
22. Pressing enter sometimes causes unexpected behavior.
