	Jack	fetch_submissions()	0				[1.] Text field on submissions page for businesses has red outline inside the box if you write in the field and then delete it. [2.] Art images get cut off when on mobile instead of resizing [3.] After submitting a review you must click "all submissions" before it disappears. [4.] Spamming "all submissions" can cause repeating 'unreplied submissions" and "replied submissions".	None
